PROFESSIONAL SUMMARY

- I have 3 years and 10 months of experience in designing and developing responsive and user-friendly websites. I have strong knowledge of modern web technologies like HTML, CSS, JavaScript, ReactJS, Bootstrap, jQuery, MySQL, and Material UI. I specialize in creating clean UI/UX designs, improving website performance, and building scalable solutions.
- I stay updated with the latest trends in web development and always aim to use best practices to create efficient and innovative websites.

PROFESSIONAL EXPERIENCE

Deep Red Ink Consulting

Hyderabad, india.

02/2023 - 12/2024

- **Web Development:** Designed and developed WordPress websites, landing pages, email templates, and admin dashboards, ensuring responsive and user-friendly designs using HTML, CSS, JavaScript, Bootstrap, and jQuery.
- **Collaboration & Maintenance:** Collaborated on website optimization, troubleshooting, and maintenance in a fast-paced digital marketing environment using WordPress, Laravel, and MySQL.
- **Website Optimization:** Implemented website optimization techniques to improve performance, loading speed, and SEO rankings, ensuring enhanced user experience and search visibility.
- **Skill Enhancement:** Independently learned ReactJS and MUI, successfully completing small-scale projects to enhance modern front-end development capabilities.

PurpleSyntax Digital

Hyderabad, india.

04/2021 - 02/2023

- **Comprehensive Project Delivery:** Completed 14+ projects using HTML, CSS, Bootstrap, PHP, and MySQL, addressing diverse client requirements such as eCommerce, event-based, and product-based platforms.
- **Advanced Front-End Development:** Successfully delivered 6+ projects with Next.js and Material UI and 5+ projects with ReactJS and Material UI, ensuring responsive and visually appealing designs.
- **Version Control Expertise:** Utilized Bitbucket for efficient version control and code management, maintaining project integrity and seamless collaboration.
- **End-to-End Project Support:** Contributed to upgrading existing projects and building new ones from scratch, implementing routing techniques to optimize user experience.

FREELANCE

- I have successfully completed freelance projects, creating static websites and landing pages using WordPress and Bootstrap. Additionally, I have provided support for website updates and modifications, ensuring functionality and user satisfaction.
